| Determinand | Units | Result |
|-----------------|-----------|--------|
| Total Coliforms | per 100ml | 13 |
| E. coli | per 100ml | 2 |
| Enterococci | per 100ml | 120 |

Comment

The water sample was tested against The Bathing Water Regulations 2013 for inland waters which define standards for the microbiological quality of surface waters where bathing or other water sport activities take place.

The above results classify this sample as 'Excellent'.

Neil Embrey
Senior Scientific Officer
